

# **Backlog of the Talio Application**

## **Stakeholders:**

- User: Person who uses the application

## **Terminology:**

- Task: Description of an activity inputted by user
- List: Collection of tasks with names
- Board: Collection of lists

## **Must:**

As a user I want to:

- ... have the opportunity to edit the same board with multiple other users
- ... see changes from other users immediately
- ... create lists in a board
- ... delete lists in a board
- ... create tasks in a list
- ... set the title of the task, and see it on the board.
- ... delete tasks in a list
- ... move tasks from one list to another by right clicking or drag-and-dropping

## **Should:**

As a user I want to:

- ... access a board via an ID
- ... access multiple different boards
- ... add tags to a card
- ... add descriptions to a card
- ... create new boards
- ... delete boards
- ... create subtasks nested within other tasks
- ... mark a subtask as completed and see a ratio for completeness in the task

## **Could:**

As a user I want to:

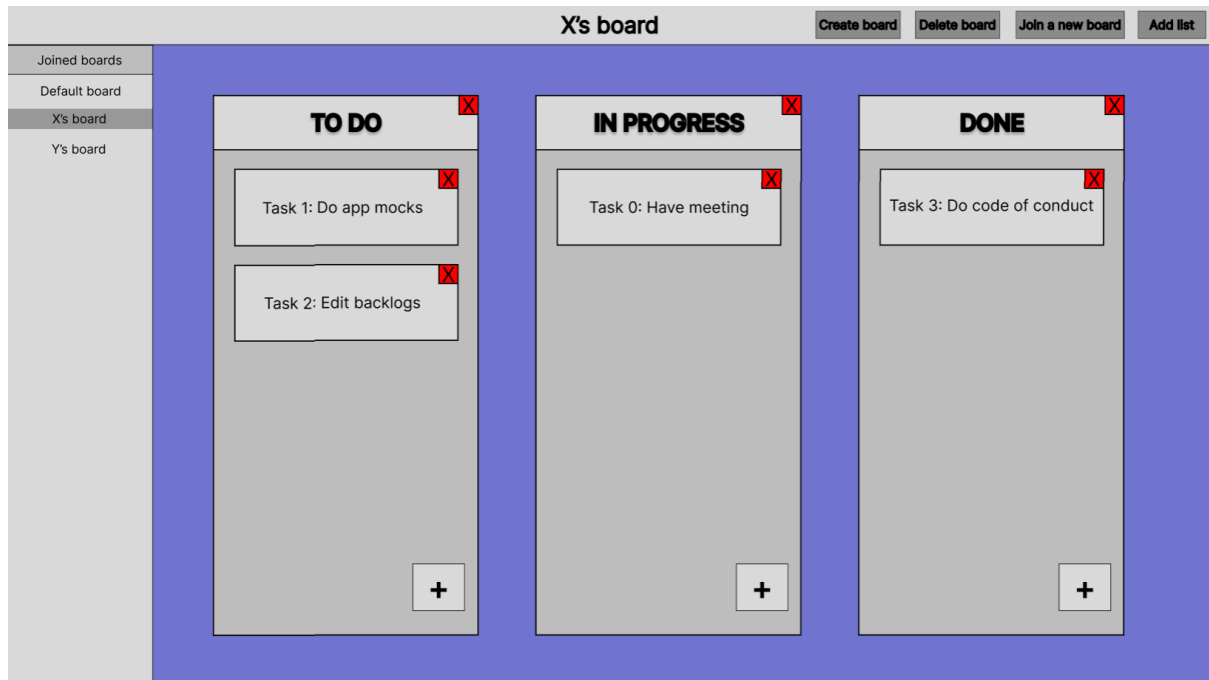

- ... recover deleted tasks via an undo button
- ... customize boards, i.e. change the background color
- ... customize tags, i.e. change their color
- ... use keyboard shortcuts to facilitate certain actions, e.g. Adding a new task
- ... edit a private board by using its password
- ... see filtered tasks based on the tag I choose
- ... search for tasks based on the title of the task
- ... be able to prioritize tasks.
- ... be able to see a collection of all boards I have previously joined

## **Won't:**

As a user I don't expect to

- ... create an account before using the application
- ... create an unlimited amount of boards or lists

## Mocks

### Add new task

Title:

### Add new list

Title:

## Join a different board

Please input the board ID:

Cancel

Join

## Create a new board

Please input the board name:

Cancel

Create

## Delete the current board

Are you sure you wish to delete the  
current board? (Default board cannot  
be deleted!)
